

## **Facebook and More** 2/27/2014

By Dick Evans [www.rwevans.com](http://www.rwevans.com)

Wikipedia defines [Facebook](#) is an online social networking service founded on February 4, 2004. The founders had initially limited the website's membership to Harvard students, but later expanded it to colleges in the Boston area and gradually added support for students at various other universities before it opened to high-school students, and eventually to anyone aged 13 and over. Users must register before using the site, after which they may create a personal profile, add other users as friends, exchange messages, and receive automatic notifications when they update their profile.

We covered the following topics and more:

### **Privacy Settings:**
